
Anne Lise Kappel

Track Record:

Anne Lise Kappel is PhD fellow focusing on Sustainable entrepreneurship in Greenland. Furthermore, she is lecturer in entrepreneurship and accounting disciplines. At Ilisimatusarfik she has started the BA program in business economy in Greenland and the Diploma program in cooperation with University of Southern Denmark.

She has a wide business career in leading positions both in public and private businesses. Her experience includes 10 years as self-employed in business consultancy, and she continues to encourage and support students, who want to try their entrepreneurial competencies.

She is member of different business networks in Greenland and Denmark. In her research, she is focusing on entrepreneurship in remote areas, how the framework conditions influence business life in general and entrepreneurship in particular.
